Education

University of Minho

2023 – 2027 (expected)

BSc in Software Engineering

Braga, Portugal

- Relevant coursework: Data Structures & Algorithms, Software Engineering, Databases, Operating Systems, Computer Networks, Benchmarking
- Current Grade: 17 / 20

Experience

Bolama

July 2026 – Present

Café Staff

Braga, Portugal

- Managed customer service and day-to-day café operations.
- Handled point-of-sale transactions and maintained efficient workflow during peak hours.

Vibes & Beats

June 2026

Production Staff

Porto, Portugal

- Coordinated with guests and organizers to ensure smooth event operations.
- Managed ticketing lines and assisted with event setup and logistics.

EPIC Júnior

April 2026 – Present

Member of the Projects Department

Braga, Portugal

- Contributed to migrating Ready2Event from a monolithic architecture to a microservices-based design.
- Maintained and supported KeyTrack, a system to manage keys for real estates.

Projects

MechanicPro | GitHub

July 2026

Management system for a mechanic shop

- Solo project: designed and built a desktop app to manage day-to-day operations for an actual mechanic shop, now in real use by the business.
- Built with Tauri (Rust backend, TypeScript/React frontend) and a local SQLite database.
- First hands-on experience pairing a systems language (Rust) with a web-based frontend in a single cross-platform desktop app.

Endless | GitHub

Ongoing

Functional algorithms library in Haskell

- Reusable library for functional algorithms and Algebra of Programming (AoP) concepts, serving as both a reference and exploration of functional patterns.
- Built with literate Haskell using lhs2TeX and LaTeX, combining clean code with detailed documentation.
- Actively developed to deepen understanding of functional programming paradigms and algorithm design.

Technical Skills

Languages: Python, TypeScript, C, Java, SQL, C#, Haskell

Frameworks & Tools: React, VueJS, Node.js, Docker, Linux, Git, Github, PostgreSQL, UML, Figma

Concepts: Data Structures, REST APIs, CI/CD, Agile Development, Systems Modeling, Cyber Security

Certifications

Foundational C# with Microsoft | [View Certificate](#)

July 2026

freeCodeCamp

Involvement

Accenture Hackathon

May 2026

Participant

Braga, Portugal

- Designed and implemented a multi-agent AI workflow to solve a given use case within a 10-hour hackathon.
